## SOUTHERN OCEAN LODGE

Remote, beautiful and super-luxe, Southern Ocean Lodge is a rare combination of location and style, offering guests a chance to soak up the wilderness, meet local wildlife and relax in sumptuous surrounds. All 21 suites face onto the Southern Ocean, with full-length windows creating a seamless interaction between the room and the dramatic view. The interiors feature sandblasted limestone floors, recycled spotted gum feature walls and elegant modern furniture – the perfect surrounds for relaxing in your sunken lounge, glass in hand, watching the ocean glisten in front of you. The rate includes meals prepared by chef Jed Archdeacon using top South Australian produce, drinks (cellar master's selection is additional) and activities, so you can move from a leisurely breakfast overlooking the ocean, to a guided walk along the cliff tops (good morning osprey, hello sea lion), to lunch, visit the Kelly Caves, head back for pre-dinner drinks and canapés with the kangaroos, and then dine at your leisure. Heavenly.

### WHERE

Kangaroo Island, off the coast of South Australia

## PAPERBARK CAMP

Luxury tented accommodation meets haute cuisine in this secluded bush getaway, ensuring your stay will be peaceful, relaxing and most importantly, super comfortable. It's the perfect getaway for someone who wants to be immersed in natural beauty without giving up any creature comforts. Tucked between soaring eucalypts and paperbark trees, there are eight original safari tents that feature verandahs and an indoor/outdoor private ensuite; but the real prize lies in the four deluxe safari tents with their large verandahs and freestanding baths. All tents are built off the ground, feature hardwood flooring, with insect screening and solar powered lighting as well as beautiful linen and all the other luxury extras you'd expect. The camp's Gunyah Restaurant is recognised as one of Jervis Bay's leading restaurants with its focus on seasonal, local produce. The camp has advanced accreditation with the Ecotourism Association of Australia and runs as a low impact operation, designed to be ecologically sustainable, so you can feel good about your holiday while feeling good on your holiday.

### BLOOMFIELD LODGE

Bloomfield Lodge combines a remote location with jaw-dropping beauty, warm weather and plush accommodation, which may explain its inclusion in the Small Luxury Hotels of the World club. Catering for just 36 guests at any time, the lodge is located near two of the world's most spectacular sites – the Daintree Forest and the Great Barrier Reef. As such, you can get out and explore the area or simply opt for the rancho relaxation, indulging in delicious spa treatments all day long. The main lodge has two types of rooms and also several 'retreats' – timber residences that encircle the lodge. All rooms and retreats feature a verandah and either a rainforest view or a view of Weary Bay. The limited number of guests means that you'll be well looked after with private vehicle and boat transfers, meals, a guided rainforest walk, guided river cruise, scenic flight from Cairns and laundry service all included in what can only be described as the perfect package.

### PRETTY BEACH HOUSE

Nestled in the trees overlooking Pretty Beach, this guesthouse isn't your average coastal shack. Pretty Beach House offers accommodation for six adults in three beautiful pavilions that surround the main house. The elegant pool and deck area maximises the feeling of being surrounded by the bush, while also having ocean views. All your meals, snacks, wine and Champagne are included in the room rate, with each pavilion having its own open-plan sitting area designed to make the most of the view (we'd also suggest you make the most of the fully stocked in-room bar). Each pavilion has a private deck with daybed and heated plunge pool, so you can soak up the lush green surrounds as well as the sun. The main house is where you'll visit the wine cellar and have cocktail hour at the bar before heading to dine on legendary chef Stefano Manfredi's inimitable cuisine. If you'd like to sample Stefano's wares somewhere else on the property, you can choose to dine in your room, on the deck or in the wine cellar. Delicious.
